"I've worked with Matt from Jester Graphix on many projects over the past 20 years. He is always the first person I contact when I have design projects. Matt is wonderful to work with and a great collaborator. He listens intently to my requests and provides thoughtful feedback. I trust his instincts and his design always exceeds my expectations. He is professional, courteous and never misses a deadline. All my experiences have been nothing short of 100% positive and I give him the highest recommendation!"

"We needed a creative strategy and branding that would appeal to our upper-class clients, AND we need it quickly. We got it! Time and time again we are impressed with Jester Graphix professionalism, timely communications and original creative concepts. We WILL be back."

"As I write this, we have just finalized our Spring/Summer 2011 Newsletter! I am already getting such positive comments on the product you designed for us and I know we will continue to get great feedback from our members as soon as it reaches them via USPS or email delivery! The newsletter design you produced as well as the formatting of the articles and pictures will certainly enhance our branding and encourage anyone who receives our newsletter to read on and find out more about what is happening with the Foundation especially what we do in the community. I fully expect this to translate to a growing membership and increased funding for our non-profit support of art and music education for kids!

From my perspective, as the coordinator/editor of the newsletter, I want to tell you it has been a pleasure working with you on this project. Your responsiveness to the timelines, suggestions and ideas, overall flexibility and patience exceeded all expectations.

Thanks again for such a quality job. Should you need a reference in the future, please add me to what I am sure is a long list of satisfied customers. I look forward to working with you on the next edition of the newsletter and on other projects as well.
